EXPERIENCE

ANACLE SYSTEMS LTD | SOFTWARE ENGINEER

Singapore | 2022 - present

- Collaborated with cross-functional teams to design, build, and deliver end-to-end solutions for global real estate companies.
- Customized and maintained a web-based enterprise resource planning application specializing in lease, license, and tenancy management.
- Also conducted testing, debugging, documentation, and deployment of the web application, providing technical support and troubleshooting for end-users.

ALFACOM TECHNOLOGIES M SDN BHD | FULL STACK DEVELOPER

Malaysia | 2017 - 2022

- Lead developer of a centralized web portal, document repository, and knowledge management system for RGE Group, spanning more than 500 users in Singapore, Indonesia, Brazil, and China.
- Led and mentored development teams, ensuring successful project delivery, driving complex changes, and delivering quality software solutions.
- Delivered multiple projects for Securities Commission Malaysia, implementing market-facing web applications for security lodgement management, business process automation, statistics, and reporting.
- Spearheaded the development of a new in-house web application framework, transitioning from AngularJS to React. This framework has since become the new baseline for projects moving forward.
